Una aventura de ciencias con el perro Max

Jeffrey Bennett, Michael Carroll, Erica Ellingson,...

Summary

Scientifically-accurate illustrations and information-packed sidebars enrich this fascinating tale, the third in this acclaimed series about diversity and space exploration. In order to reach their spacecraft, Max and his crew must take an amazing ride on a new device called the Space Elevator. Once they've probed the planet's atmosphere, Max and friends begin exploring two of Jupiter's moons—the volcanically active moon Io and the ice-encrusted moon Europa. Mindfulness

Su origen, significado y aplicaciones

Jon Kabat-Zinn, Mark G. Williams

Summary

In this collection of writings from diverse Buddhist authors, Jon Kabat-Zinn considers how Buddhism and mindfulness can be integrated with scientific research. Mindfulness as an intentional awareness of the present moment can be applied to education, healthcare, psychology, neuroscience, and other major disciplines. Kabat-Zinn explores the use of mindfulness throughout history and its application today, and recognizes fields for potential synergy and potential disjunction.

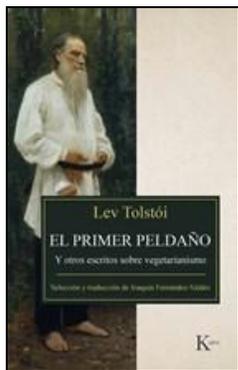

Los enfoques basados en mindfulness aplicados a la medicina, la psicología, las neurociencias, la asistencia sanitaria, la educación, el liderazgo en los negocios y otras importantes instituciones sociales, se han vuelto habituales. Están emergiendo nuevos paradigmas a partir de la confluencia de dos poderosas y potencialmente sinérgicas corrientes de investigación: una de ellas surge de las tradiciones de sabiduría de Asia; la otra, de la ciencia empírica post-ilustrada. Este libro presenta el trabajo de expertos internacionales de renombre en el campo académico del budismo y la investigación científica, además de ...

El primer peldaño Y otros escritos sobre vegetarianismo

Lev Tolstói

Summary

A vegetarian himself, Leo Tolstoy believed that all human beings pursuing a righteous life should stop animal cruelty and become vegetarian. In his philosophical essays on the principles of vegetarianism, Tolstoy considers this diet as an extension of an ethical and moral life. His arguments are impassioned and eloquent, affirming that eating meat is an immoral act. This collection of his teachings aims to reveal this relevant and inspiring aspect of Tolstoy's life.

Mucha gente desconoce que el autor de Guerra y paz fue un vegetariano convencido; alguien que consideraba que quien desee hacer el bien y llevar una vida ética y moral, debe empezar por lo más elemental: dejar de causar el sufrimiento no solo de personas, sino también de animales, y cumplir así con la ley cristiana fundamental: «no matarás». Esta selección de textos, traducidos del ruso por Joaquín Fernández-Valdés y presentados por primera vez en lengua castellana, pretende dar a conocer este aspecto crucial de la vida de Tolstói, cuyas ideas inspiraron movimientos vegetarianos en todo el mundo.
